President Flick: The following statement was read:

There was an incident that occurred in a game this week that was brought to the attention of the executive board. It is being addressed because a video of the game was posted all over social media and many opinions and comments are being made. We have all been in a position where a call may have been missed. The camera or video will pick up things we do not see. We do our best to be in the correct position to make the appropriate call. I want to emphasize that we are here to support our officials. The board will continue to stress the importance of educating and training all of the officials, with a focus on positioning, correct application of the rules, the carding process, use of the appropriate card, and communicating with our partners. That particular game is over and it is time to move forward. The goal is to constantly reflect and reevaluate our performance and make adjustments to do our best in every athletic contest.

Minutes: A motion to approve the minutes from October 3, 2022, was made by Fanucci and Seconded by Stemberger. The minutes were unanimously approved.
